| Supplier Risk Monitoring – European Automotive Company

STATXO

Challenges:

A leading European Automotive Firm with annual revenue of ~7Bn faced issues of over-dependence on limited suppliers, delayed inbound deliveries, and a lack of real-time supplier risk visibility.

STATXO's Solution:

- Assessed **1,000+ suppliers** to identify **high-risk groups** & develop targeted **mitigation strategies** to reduce overdependence on limited suppliers
- Implemented **Real-time News Tracking & Financial Risk Analysis** (*Altman Z-Score & Trend Analysis*) to enhance supplier risk visibility, improve supplier diversification, address disruptions, & strengthen supply chain resilience by **mitigating delayed inbound deliveries**

Benefits:

- Generated **1,000+ actionable insights & way forward** annually for risk mitigation, enabling informed and timely decision-making
- **~13% Improvement in On-Time Delivery:** Proactive risk identification & mitigation reduced disruptions, resulting in improved suppliers' delivery

| Holistic Supplier Risk Assessment & Segmentation – Global Logistics Leader

Challenges:

The client, a Europe-based Global Logistics company, faced difficulties with inconsistent supplier profile data & segmentation with limited visibility into their operational & financial risks, impacting decision-making ability.

STATXO's Solution:

- Segmented **2,300 strategic suppliers** to conduct comprehensive risk assessments using Qualitative Scoring, Predictive Analytics, & **advanced AI-driven news monitoring & impact evaluation**
- Implemented a robust **Risk Mitigation Model** to prioritize high-risk suppliers & **AI-Based Decision Intelligence Framework** to create tailored action plans addressing potential vulnerabilities

Benefits:

- Proactively monitored **~15 risk categories** across the supplier network, enabling timely risk mitigation
- **~20-25% improved** suppliers' risk profile data accuracy enhancing decision-making reliability
